

Specifications sheet

LIFELINE®

Tracklight system

EKLIPSE™
ARCHITECTURAL LIGHTING

Characteristics

LIFELINE® is a refined, discreet, track system that can accommodate multiple specially designed lighting fixtures.

Versatile, with ease of use, LIFELINE® encompasses near invisible integration, ingenious connectivity, and simplified installation.

Electrical

Input

Max load: 85W per run with Eklipse provided power supplies.

Remote Power Supply

24V: Eklipse™ PSB-24-100.

Dimming Power Supply

24V: Eklipse™ LM-24-100.

Wiring

48" length (1.2 m) - 20 AWG wire lead with WAGO quick connector. *

Physical

Construction

High precision thin walled aluminium extrusion.

Copper conductor.

Thin steel strip.

Application

Integrated metal strip allows for quick and easy magnetic installation of mating lighting products. Product can then slide freely all along the LIFELINE® system for unrestricted positioning.

Finish

Anodized clear.

Anodized black. *

Interior / Dry location only

Supports
PIXIS™
MILI®

* Available for tailor-made application. Please contact your Eklipse™ representative for further informations.

Dimensions

Installation

Design concept

Millwork integration
